CRGAR GOAL

EXPAND GLOBAL AWARENESS OF COSTA RICA, CRGAR, ITS MEMBERS AND THEIR LISTINGS, AND THE INVESTMENT ENVIRONMENT

CRGAR has been a Costa Rica leader in creating forums, events, presentations, and information, to help focus global attention on the country.

CRGAR's planned 2023 CIPS Institute, offering instruction to realtors seeking the NAR Designation of Certified International Property Specialist, will be the 11th time in the last 13 years in which CRGAR organized this event. The CIPS Institute attracts international attendees to understand Costa Rica, as well.

CRGAR has sent speakers and attendees to international realtor events to raise awareness of Costa Rica each year since 2000.

CRGAR intends to give the Costa Rica MLS a new look, and some new functionality this year. CRGAR member listings will become available in multiple other MLS systems in North and South America, based on the Omni MLS Platform.

CRGAR GOAL

DEFEND COSTA RICA AGAINST IMPROPER CROSS BORDER SALES ACTIVITY BY FOREIGN REALTORS

CRGAR successfully brought the previously unknown scope of this issue to the attention of the largest realtor organization in the world, NAR. After understanding conditions in just two major U.S. cities, NAR changed direction and will help CRGAR to reduce this problem in Costa Rica, as well as work similarly with other real estate professionals in other countries.

**CRGAR needs your support
to maintain our momentum with all goals!**
